GUEST LECTURE ON BLOCKCHAIN

THE PROGRAM COVERS FOLOWING POINT IN SESSION

Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. An *asset* can be tangible (a house, car, cash, land) or intangible (intellectual property, patents, copyrights, branding). Virtually anything of value can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.

Operations often waste effort on duplicate record keeping and third-party validations. Record keeping systems can be vulnerable to fraud and cyber attacks. Limited transparency can slow data verification. And with the arrival of IoT, transaction volumes have exploded. All of this slows business, drains the bottom line – and means we need a better way – Enter blockchain.

The decentralized nature of blockchain sets it apart from traditional record-keeping, the value of a permission blockchain for business transactions, and how blockchain promotes new levels of trust and transparency.

The food industry is just one of many being transformed through blockchain technology. Learn how it can trace when, where and how food has been grown, picked, shipped and processed – all while protecting network-participant data.

Report
On
"WEBINAR ON HIGHER EDUCATION IN US, CANADA AND AUSTRALIA- MS PROGRAMS"

Date : 6th NOVEMBER 2020
Students Targeted : All TE, BE Students (EXTC, IT, COMPS)
Faculties arranged the activity : Ms. Sumita Gupta, Ms. Purnima Vadak, Ms. Dhanashri Kanade, Ms. Bharti Khemani
Venue : Online through google meet
Conducted under : GATE Cell

Students & faculties Attended: 85

Objective: Awareness regarding higher studies abroad

To prepare the students for higher studies like MS program, after completion of BE the GATE Cell organized guidance session activity named "Webinar on study Abroad Opportunities in US, Canada and Australia for MS, MBA and Post Degree Diplomas" on 6th November 2020.

The activity was conducted by Computrain Study Abroad Company. The session started with welcoming speech of principal Dr. Vilas Nitnaware. Sir welcomed speakers and asked speakers to remove fear of COVID-19 pandemic situation which should not stop the students to go abroad and continue with higher studies. The speakers for the activity Mr. Zachariah Samuel, Founder Director and Ms. Sunita Vinod Kothamarthi, Sr. Manager Institutional Linkage COMPUTRAIN explained the overall procedure of higher studies abroad and made the students comfortable for higher studies abroad.

The speakers talked about various US, Canada and Australian Universities and various exams necessary for admission. They also guided about fees structure, education load and visa process required for entire education. They explained the students about the free counseling provided by their company regarding any kind of doubt.

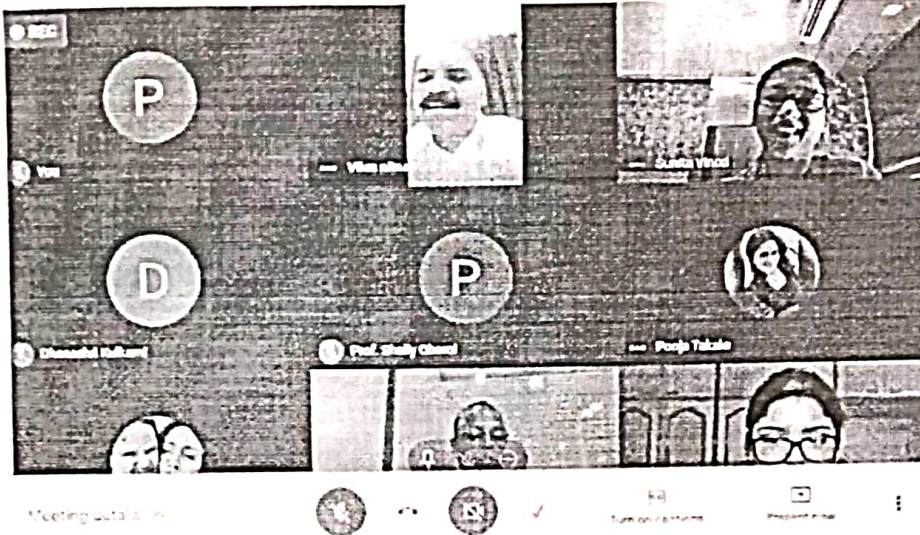

Many students and faculties have participated in this activity. At the end of the activity many students asked their doubts regarding higher studies and the speakers resolved all their queries. The GATE Cell faculty Coordinators Ms. Sumita Gupta, Ms. Purnima Vadak, Ms. Dhanashri Kanade and Ms. Bharti Khemani have successfully coordinated the entire event under the guidance of Dr. Shelly Oberai, Head, Humanities and Applied Sciences Department.

K.C. College of Engineering &
Management Studies & Research

K.C. College of engineering and management studies and research has organized a 30 Hrs Value Added Program on "VLSI Front End & Backend Design" for the students of First year of Second year of Engineering and third year of Engineering.

Day 1, Day2, Day3: Session 1: 4:00 am- 6:00 pm conducted by "Dr. Nitin Narkhede"

- Topics Covered: System Verilog Operators, Loops, Jumps.
- Intro to Logic-Specific Processes, Enhanced functions & tasks
- Nonblocking Assignments, Race Conditions & System Verilog Event
- Scheduling Interfaces
- Program Blocks & Clocking & Hardware Verification Language.
- System Verilog

Day 4, Day 5, Day6 : Session 2: 10:00 am- 2:00 pm conducted by "Mr. Udayan Patankar"

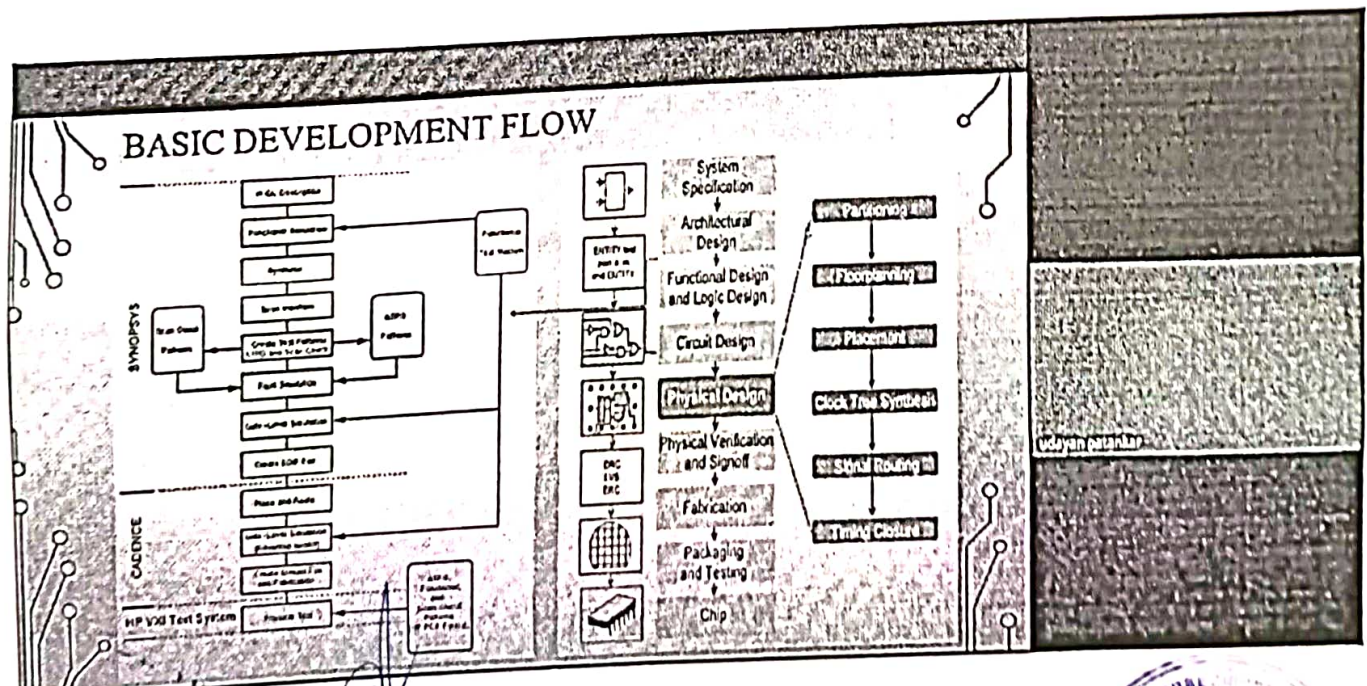

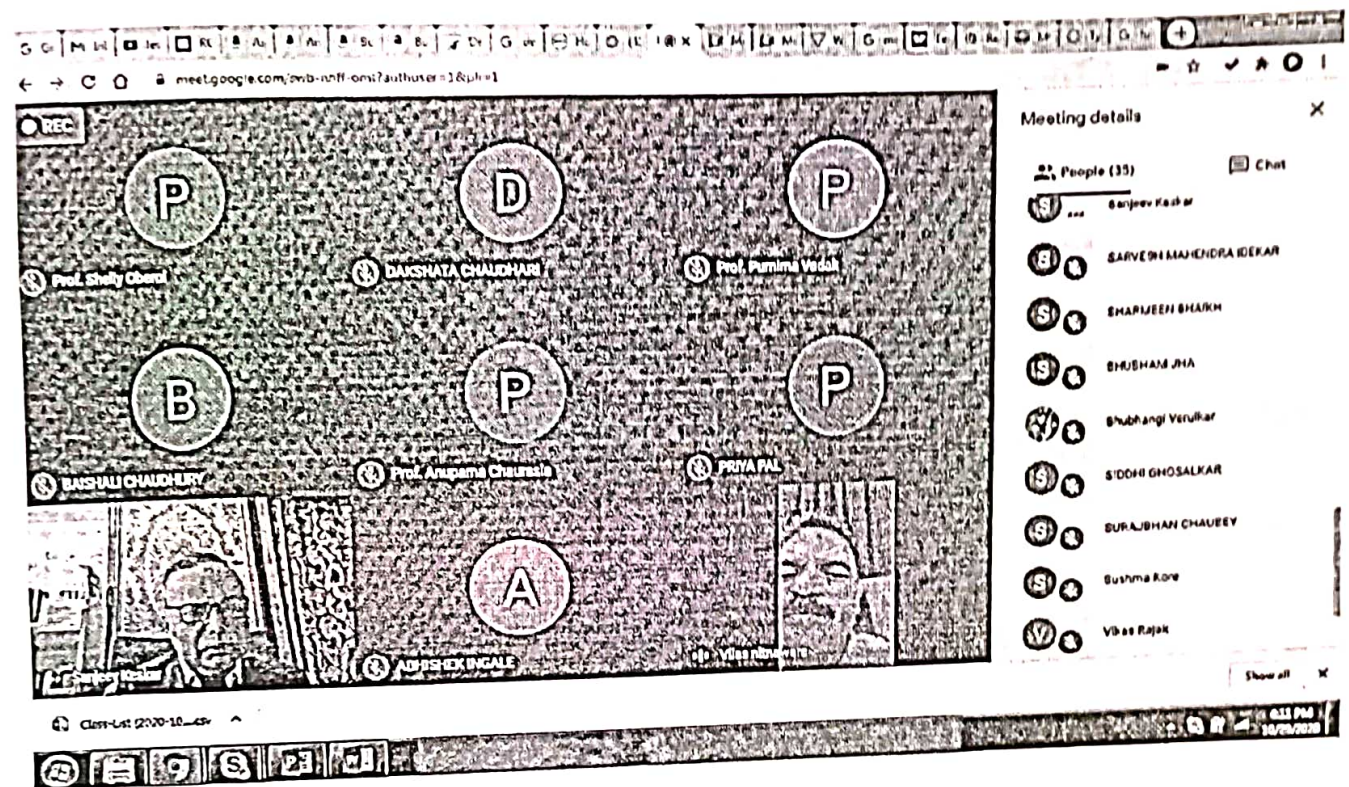

- Introduction to IC manufacturing process flow.
- CMOS design steps, rules, Hands-on training on Digital circuits-I
- Hands-on training on analog circuits-II

Day 7: 10:00 am -5:00 pm
System on Chip Design & Verification

- 2) Mr. Saifuddin Shaikh
Network Engineer (Cisco certified)

Date of conduction: -04/05/2021 and 05/05/2021

Target audience: - T.E. EXTC students

Topic covered: -

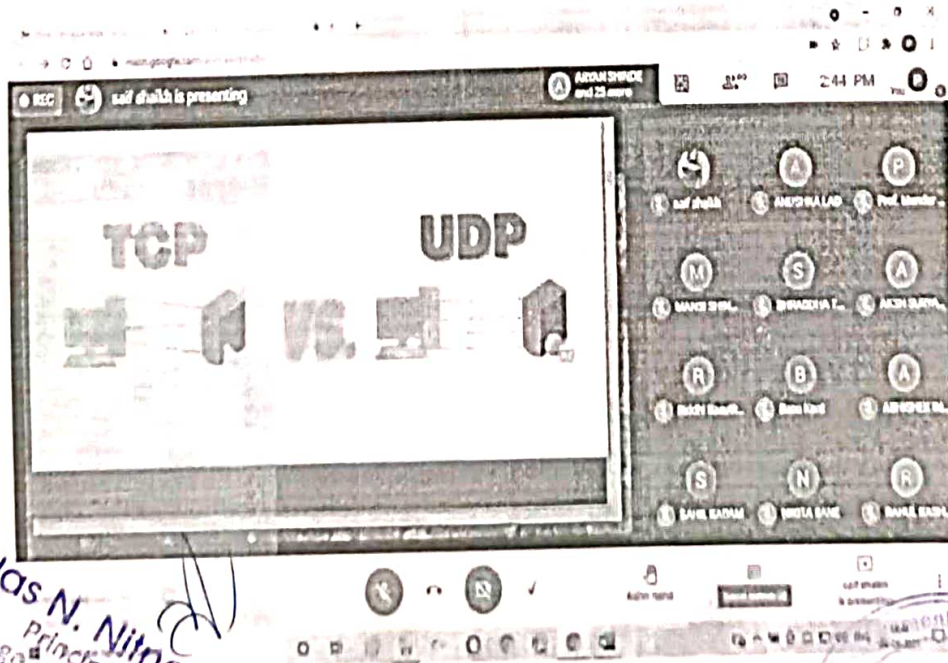

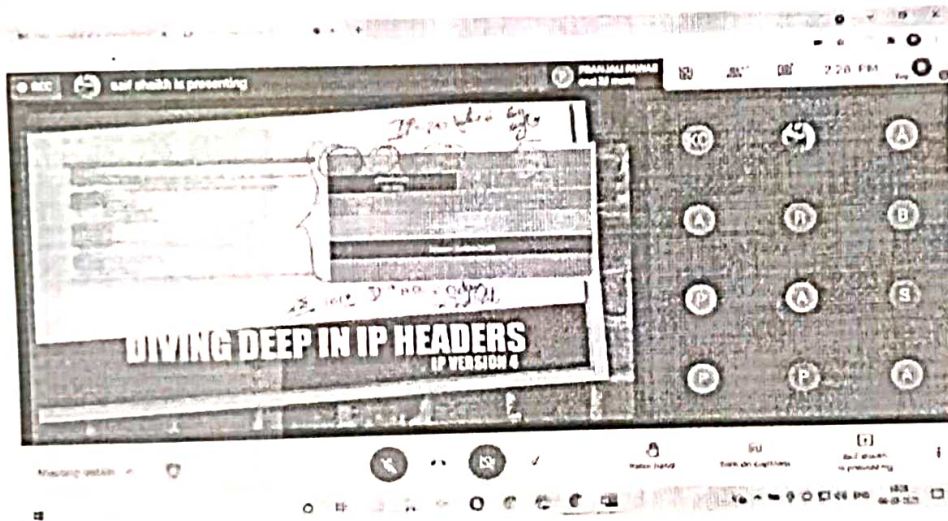

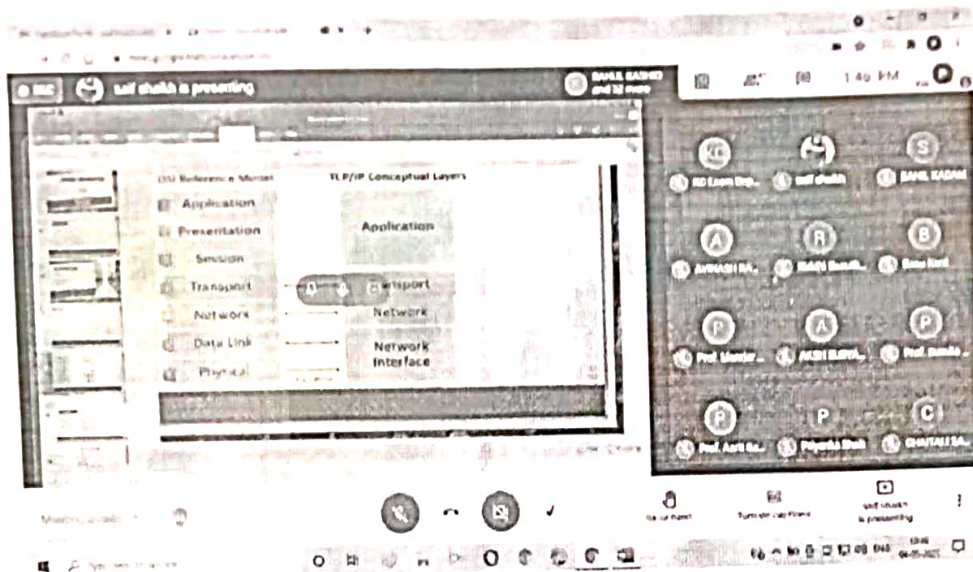

- Introduction about networking and carrier in networking
- TCP and UDP protocol, data transmission
- IPV4, IPV6 addressing, classful addressing
- Security fundamentals
- Topology lab using AVG-ND software
- Firewall concept
- Steps to configure firewall (pfsense/ UFW)

Outcome: Students are able to learn networking concepts (practical approach), new open source software, firewall concept and it's configuration.

A REPORT ON "National Level Hackthon: Orion Hack-2021"

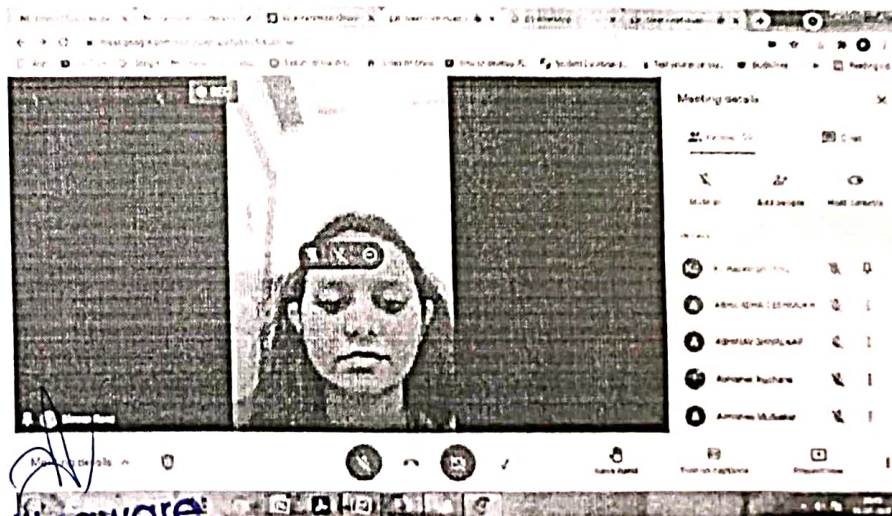

Overview: The objective of Hackathon is to have Team building, Networking. Intense problem-solving which facilitate the creation of innovative ideas and concepts and Talent Acquisition where the students can go beyond their reach and see how much talent and concept is needed to make one project successful. Keeping this view in mind the Department of Electronics and Telecommunication, Computer Engineering and Information Technology of K.C. College of Engineering & Management Studies & Research under the banner of IETE- SF, CSI & IIC Organised Orion Hack-2021 National level online Hackathon It was a 24 hours event that started at 11 A.M on 11-May-2021 and ended at 11 A.M on 12-May-2021. From all over India, the responses received total 22 teams registered for the event. The participants had enrolled from various states like Maharashtra Andhra Pradesh, Haryana, Rajasthan and Telangana making the Hackathon a success.

Sequence of events:

I. Inauguration:

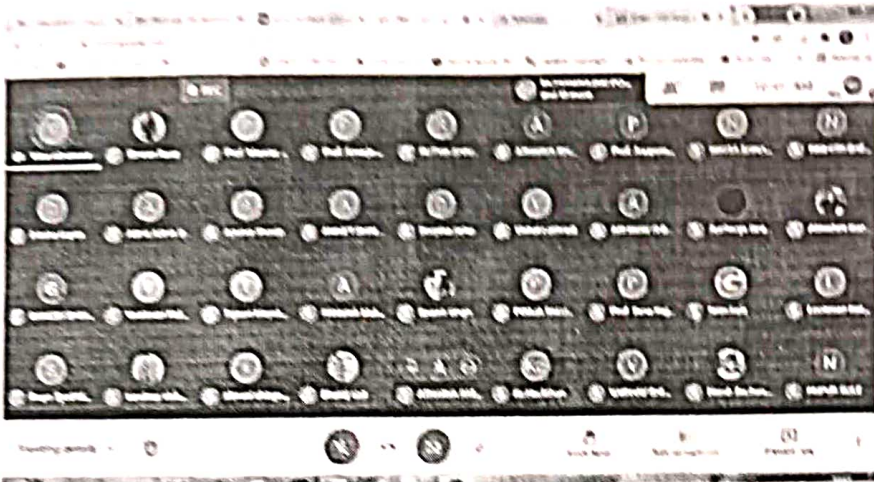

The inauguration of the event was held on Google meet at 11 A.M on 11-May-2021. All the participants joined the inauguration event. The host greeted the college authorities and all the participants and gave a short introduction about the event.

After the inauguration event, participants fastened their hands on to the keyboard and started coding and simulating.

Thankyou for this wonderful hackathon competition.

enjoyed the thrill of the competative environment

It was a great session. The judges and mentors were very helpful and informative.

overall hackthon event was really good. will like to attend similar event in a future.

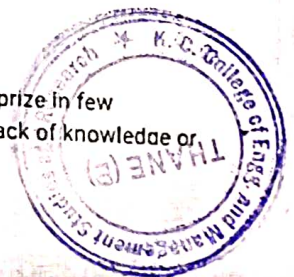

No

Nice to be participating in such a event

It was a good simple organization ... friendly talks and overall best

It was an awesome experience

Worst session ever attended till date , the project we presented has been awarded first prize in few competitions and here the iudoes are not completely getting the project either of their lack of knowledae or

Indians Whose Rags-To-Riches Stories Will Inspire You To Never Give Up

J. Karsanbhai Patel

Early life: A lab assistant at the Geology and Mining Department. Became 'The man behind Washing powder Nirma'.

Karsanbhai Patel used to make detergent powder in the backyard of his house in Ahmedabad and then sold it from door to door. He used to give a money back guarantee with every pack that was sold. When the chemical detergent in the market was priced at Rs. 10/kg he offered his own product for Rs. 3/kg.
