Dear Ma'm,

I trust this mail finds you well and in good health.

I am glad to share this with you that even in this lockdown due to Covid-19 we are able to continue with all our academics related activities through online portals..

With this we intend to keep tuned our pre final year students who will be soon industry ready and therefore I would request you to kindly host a **short online session** for our **UG Engineering** students in order to let them prepare for upcoming campus placement. The live session can be conducted through **Zoom/ Cisco webEx app** or any other platform of your recommendation. It will certainly add value to their preparation if you can highlight the following issues during the session:

- What significance HR round has in the recruitment process of tech companies.
- What a Tech company expects from a fresher at campus?
- A journey from campus to corporate: How to make it more meaningful?

These are just expectations of students however you may please conduct the session as per your convenience, skills and expertise.

Ma'm, with respect to above kindly suggest a suitable time or slot we can move on with.

Thank you.

Take good care of yourself.

Best regards,
